

Instructions For Filing Regulation 8.130 Supplemental Information Forms

The instructions set forth below are provided to assist you in preparing the form 8.130-2, "Regulation 8.130 Supplemental Information Form." Additional assistance may be obtained by calling the Audit Division at (702) 486-2060.

Licensee Information

This section is designed to identify the transactions for which supplemental information is being supplied. The licensee should be identified by trade name. If questions arise regarding the proper name, the licensee (borrower) should be requested to supply this information.

Lender Information

The "lender name" should be the name of the entity advancing the funds or leasing property to the licensee (borrower). If the loan is made by a corporation, partnership, trust or any other similar entity, the name, address, phone number and tax identification number of that entity should be entered in the top section. Information on the entity's principals should be entered in the next section, following the instructions on the form.

If the lender is a person or persons, the lender information should be supplied for the individual(s). The federal tax identification number(s) would be the Social Security Number(s).

Other Lenders

This section should be completed only if a third party advanced the funds to the person or entity completing the reportable transaction with the licensee, or if the property being leased to the licensee was leased from a third party (i.e., a sublease or similar agreement).

As with the primary lender, if the other lender is an entity other than a person or persons, the principals of this entity must be identified on page two.

Security, Collateral and Guaranties

If a transaction is collateralized or secured and a third party provides the collateral or other form of security or guaranty, information on the entity and its officers, partners, etc. must be supplied.
